

Sole-Aero Business Telephony Systems

Sole-Aero Telecoms are an independent communications specialist offering a full range of business phone systems.

We have formed strategic relationships with On premise PBX suppliers to allow us to offer best of breed telephony solutions at a price that is highly competitive in the market place.

The Sole-Aero product portfolio delivers the functionality and capability available to large businesses and combines this with the ease of use and budgets demanded by SMEs. With our broad range of solutions we can provide a phone system to manage home workers, mobile workers, single site and multi-site businesses as well as managing call centre requirements.

Sole-Aero have a wealth of knowledge and experience with both traditional phone systems and the latest IP systems, including specialism in Hosted IP telephony.

Sole-Aero fully understand that implementing a new telephony system needs careful planning and consideration. With a dedicated team based in the UK we are positioned to be able to offer full end to end support from design and implementation through to end user support and maintenance.
